

Connecting to TUStudents WIFI

1. Find the TUStudents WIFI network on your device and choose Connect
2. Enter the password for the TUStudents network
3. Once connected you will need to open a web browser on that device
4. Navigate to a URL, and you will be prompted with the screen below

Welcome to the Untangle Captive Portal

Click Continue to connect to the Internet.

☐ Clicking here means you agree to the terms above.

Continue

If you have any questions, please contact your network administrator.

5. You must click the check box and then click Continue
6. You are now connected

For other devices that do not have a browser, you will need to send the MAC address of that device to our help desk at tdis@tusculum.edu and we will have to register that device on our exemptions list in order to get connected.
